

## ANIMALS AVAILABLE FOR SPONSORSHIP

### DOGS

**Isaac** is an 8 year old Collie who had a very restrictive life in his old home, not enjoying normal doggy activities. He has the added disadvantage that he's deaf and is very loving but needy and suffers severe separation anxiety.

### CATS

**Petra** was dumped at the Ark in April 2011 with her kittens and we estimate her to be 6-7 years old now. Her behaviour was quite feral, so she was eventually released and she's stayed on site and is now quite friendly on her terms.

**Elsa** is a 3 year old black and white girl who suffered nerve damage in a road accident. She's very mobile, but had to have her tail amputated and is partially incontinent of urine so dribbles particularly if picked up. She's a real character and patrols the site keeping an eye on everything.

**Cooper** arrived in 2014 as a stray and with a shattered jaw. He had to have all his teeth removed but that doesn't prevent him from begging for food from staff and volunteers' packed lunches! He patrols in and around the office and has ASBO signs up in the office warning visitors about his nifty claws.

**Little Fella** arrived in 2017 as feral boy, but has now decided to live alongside us, if somewhat temperamentally at times. He hates dogs with a vengeance.

**Tilly** an older lady with kidney disease, on medication and special diet, also partially sighted. She's available for adoption into a comfy retirement home but the reality is that this may well not happen.

We have lots of other resident cats that are unlikely to be going anywhere and will, therefore, spend the rest of their lives at the Ark. Any one of these can be sponsored too – if we can catch them to get photos!

## **HORSES**

**Holly** 20yr old thoroughbred Cross Connamara Bay mare of 15.2hands. Came in following marriage break up with injuries resulting from hard work and now needing special feed and stable flooring .

**Rodney** is an 17 year old Bay Thoroughbred, a very friendly gentleman, retired at the Ark as a non-riding horse, loves companionship and a Casanova.

**Barnaby & Amber** Barnaby is 15yr old miniature Shetland, only 29” high and Amber is a 21yr old Shetland of 10.2 hands. They've come in to live permanently at the Ark following owners divorce as she can no longer keep them.

**Evita** 18yr old Argentinian polo pony rescued from a horse sale as she was going to be put to sleep if not sold. Has an old knee injury so can't be ridden and come to retire.

**Georgie** 25yr old thoroughbred mare, ex-showjumper till injured, also ex-breed mare, now retired.

**Toffee** 17yr old chestnut gelding standing 9hh, suffers with laminitis from time to time so is now retired. Lost his best friend Murphy to ill-health after coming in and has missed him terribly.

**Annie** totally blind 2 year-old rescued from Wales after she'd been abandoned by gypsies in Cardiff.

**Seb** A real gentleman and an ex-racehorse now retired with us due to old age and previous injury

## **DONKEYS**

**Vera** Nervous girl who turned out to be pregnant when we rescued her and had a beautiful foal named Dory. She's gradually learning trust the longer she stays with us.

**Matilda** Another donkey found to be pregnant on arrival. She produced our first baby donkey, Polyanna, who has since been rehomed. Her best friend is Madonna.

We have more horses and donkeys on application. See them on our website at [www.arkanimalrescue.co.uk/adoption/](http://www.arkanimalrescue.co.uk/adoption/)

## OTHER ANIMALS

**Billy & Magic** Resident goats. Billy and Spirit came together and Spirit produced Magic very unexpectedly soon after. Spirit has sadly recently died.

More details and pictures of these animals can be obtained by visiting our website [www.arkanimalrescue.co.uk](http://www.arkanimalrescue.co.uk) and clicking onto pages: **Residents** and **Equine Residents** to help you make your choice. If you don't have internet access, please feel free to ask our staff for more information about specific animals.

## KENNELS, PENS ETC

We also have a scheme whereby people can sponsor individual areas of animal accommodation which will help support any animal(s) occupying them. This means that animals in them may change from time to time as it is the pen which is being sponsored. They may be sponsored in memory of a loved departed family member, friend pet, or a past Ark resident. Available areas are: **a. Resident Dog Kennels** **b. Rehoming Kennels** **c. New Rehoming Cattery** **d. Log Cabin for elderly and feral cats** and our **e. Ark van.**
