

ANIMALS AVAILABLE FOR SPONSORSHIP

DOGS

We currently have no long-term resident dogs for sponsorship.

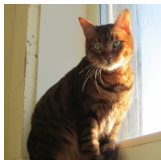

CATS

George Came into the Ark in 2017 with his friend Lola after they'd been abandoned. Lola was friendly and was rehomed but George hid and ran away and has always been overlooked. His best friend Fizz died recently and he's really missed her.

Bob Originally a stray, he now patrols the site, sunbathing and helping himself to leftover food from the other cats as well as the foxes and badgers. Friendly boy with humans, cats and dogs.

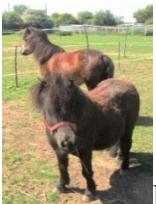

Kia is an 11yr old Bengal house cat who was painfully shy on admission and soiled in the house. Since we've released her onto the site she's much happier.

We have lots of other resident cats that are unlikely to be going anywhere and will, therefore, spend the rest of their lives at the Ark. Any one of these can be sponsored too – if we can catch them to get photos!

HORSES

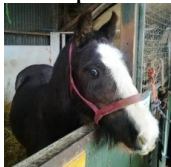

Rodney is an 17 year old Bay Thoroughbred, a very friendly gentleman, retired at the Ark as a non-riding horse, loves companionship and is a Casanova.

Barnaby & Amber Barnaby is 15yr old miniature Shetland, only 29" high and Amber is a 21yr old Shetland of 10.2 hands. They've come in to live permanently at the Ark following owners divorce as she can no longer keep them.

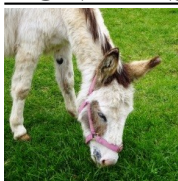

Evita 18yr old Argentinian polo pony rescued from a horse sale as she was going to be put to sleep if not sold. Has an old knee injury so can't be ridden and come to retire.

Annie totally blind 2 year-old rescued from Wales after she'd been abandoned by gypsies in Cardiff.

DONKEYS

Vera Nervous girl who turned out to be pregnant when we rescued her and had a beautiful foal named Dory. She's gradually learning trust the longer she stays with us.

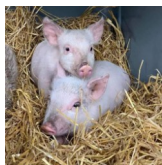

Morse Very nervous boy that came in with Vera, possibly the father of Vera's foal. Has improved a little with regular handling but probably won't be suitable for rehoming.

We have more horses and donkeys on application. See them on our website at www.arkanimalrescue.co.uk/adoption/

OTHER ANIMALS

Greta & Annabel Two new rescue goats, both youngsters of around 2 years old. Proving to be real characters and getting up to no end of mischief!

Jeff & Ethel Jeff was found running down a main road at only 2-3 weeks old, presumably having fallen out of a farm lorry. He's been joined by Ethel as a companion to grow up with.

More details and pictures of these animals can be obtained by visiting our website www.arkanimalrescue.co.uk and clicking onto pages: **Residents** and **Equine Residents** to help you make your choice. If you don't have internet access, please feel free to ask our staff for more information about specific animals.

KENNELS, PENS ETC

We also have a scheme whereby people can sponsor individual areas of animal accommodation which will help support any animal(s) occupying them. This means that animals in them may change from time to time as it is the pen which is being sponsored. They may be sponsored in memory of a loved departed family member, friend pet, or a past Ark resident. Available areas are: **a. Resident Dog Kennels b. Rehoming Kennels c. New Rehoming Cattery d. Log Cabin for elderly and feral cats** and our **e.Ark van.**
